Corporate Mission

Naxa Electronics designs and distributes consumer electronics that entertain and delight at a very competitive price. Our mission is to deliver products that stand out from the crowd. Whether your business is retail, wholesale distribution, or ecommerce, Naxa will give you the product assortment and packaging you need to create customer acquisition and retention.

Our product development team brings items to market that consumers demand by embracing the latest innovations in both technology and design. We are committed to responding to the needs of our users and our partners.

Along with product innovation, Naxa is dedicated to providing unequalled service. Our management team and staff do everything within their power to satisfy all needs and requests. We’ve expanded our sales support team to ensure that users and partners receive courteous, positive, and prompt communication at all times. We have also expanded our corporate office and warehouse facility in Vernon, California—just a few short miles from downtown Los Angeles. The new office and warehouse complex together with our updated systems and overseas subsidiaries have expanded our global footprint and given us the capability to provide high level support worldwide that our customers have come to expect.

Now the moment you have been waiting for...Naxa Electronics is proud to present to you this year’s product offering!

---

One of the great success stories in consumer electronics has been wireless Bluetooth® technology. Consumers have snatched up Bluetooth® enabled products in great numbers because of how easy it is to enjoy music without the hassle of cables or expensive docking stations that need to be replaced. However, the setup and pairing process with Bluetooth has always been a pain. Until now. Naxa Electronics is introducing 1-touch setup for Bluetooth® with NFC®. When you see a Naxa speaker with the NFC® emblem that means you can connect wirelessly to that speaker within seconds. Simply touch the back of your smartphone, tablet, or other Bluetooth® and NFC® enabled device to the emblem, and voilà! Instant Audio. Nirvana. No more pin numbers and complicated menus that get in the way of your music. Naxa 1-touch Setup is just that easy!

* iOS does not currently work with NFC® setup.

Audio

Naxa Electronics has a proud history of serving the audio needs of its customers. From traditional boomboxes updated with Bluetooth® and MP3 playback to harder-to-find cassette players, Naxa keeps things current while still honoring the past.

As the world continues to go digital and portable, Naxa has expanded its line of portable Bluetooth® speakers. Flexible wired and wireless connection options, built-in MP3 playback from flash drives, waterproof coatings, and rechargeable batteries are just some of the standout features you'll find throughout the line. From small travel speakers all the way to powerful speakers with built-in subwoofers, Naxa has exactly what you're looking for.

Along with providing high-quality, standalone speakers, Naxa also offers hard to find audio solutions in portable MP3, video, CD players, and bookshelf systems. Whatever you need, Naxa has a solution for you.

Turn it up to get down anywhere. The built-in subwoofer with matched high-power drivers gets low and loud.

It’s not a party until the music starts. Get it going (and keep it going!) with 10 replaceable D batteries.

Make yourself heard. Connect a microphone (or two) and you’ll be ready to toast ‘em and roast ‘em.
